a. A permitted use under the Zoning regulations?b. Consistent with the adopted comprehensive plan?	YES	NO
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	YES	NO
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If yes, identify:	YES	NO
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	YES	NO
b. Are public transportation service(s) available at or near the site of the proposed action?c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies:	YES	NO
10. Will the proposed action connect to an existing public/private water supply? If no, describe method for providing wastewater treatment:	YES	NO
11. Will the proposed action connect to existing wastewater utilities? If no, describe method for providing wastewater treatment:	YES	NO
a. Does the site contain a structure that is listed on either the State or National Register of Historic places?	YES	NO
b. Is the proposed action located in an archeological sensitive area?		
13. a. does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other water bodies regulated by a federal, state or local agency?	YES	NO
b. Would the proposed action physically alter, or encroach into, any existing wetland or water body? If yes, identify the wetland or water body and extent of altercations in square feet or acres:		
14. Identify the typical habit types that occur on, or are likely to be found on the project site. Check all that apply:	YES	NO
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	YES	NO
16. Is this project site located in the 100 year flood plan?	YES	NO
17. Will the proposed action create storm weather discharge, either from point or non- point sources? If yes, a. Will storm water discharge flow to adjacent properties?	YES	NO

b. Will storm water discharges be directed to establish conveyance systems (runoff and storm drains)?If yes, briefly describe		
if yes, oneny describe		
8. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)?	YES	NO
f yes, explain purpose and size:		
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?	YES	NO
If yes, describe:	-	
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?	YES	NO
If yes, describe:

reviewer. When answering the questions the reviewer should be guided by the concept "have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the Proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing: a. public / private water supplies b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, water bodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding, or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3- Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2
that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed
action may or will not result in a significance adverse environmental impact, please complete part 3. Part 3 should, in sufficient detail,
identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce
impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential
impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude.
Also consider the potential for short- term, long-term and cumulative impacts.

Check this box if you have determined, based on the information at the proposed action may result in one or more potentially large or signific is required.	
Check this box if you have determined, based on the information at	nd analysis above, and any supporting documentation, that
the proposed action will not result in any significant adverse environmental	al impacts.
