For Multi-family Residential / Non- Residential Area Variances, please complete the following:				

Number of Parking Spaces:

Buffer:

Units per Acre:

REQUIRED	PROPOSED

Area Variance Continued

1. Explain how no undesirable change will be produces in the character of the neighborhood; nor a detriment to nearby properties created by granting the area variance.

Our pool will beinour back yard. It will be facing the garage of one neighbor and a shed of another neighbor.

2. Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.

Our property lot is very small. The place where the contractor stated the pool would have to go has only 5 feet to property line

- 3. Describe whether the requested Area Variance is substantial.

 I do not think that requests of the 5 feet

 distance to property lines is substantial.
- 4. Explain how the proposed variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.

There are no trees where the pool will be placed. The land area will be tered leveled for the pool.

5. Explain whether difficulty is self- created. (Consideration is relevant, but should not necessarily preclude the granting of the Area Variance.

Our lot is sloped. We have to put the pool where the contractor suggested. This will cause the least disruption to the land.

For U	Ise Variance Applications, please complete the following:
Descri	be the request use:
1.	Explain why the application cannot realize a reasonable return without the Vse Variance, as demonstrated by the content financial evidence.
2.	Explain how the alleged hardship relating to the property is unique, and does not apply to a substantial portion of the neighborhood.
	portion of the neighborhood.
3.	Describe why granting the requested use variance will not alter the essential character of the
	neighborhood.
	Explain whether the alleged hardships have been self- created.
	Describe in Detail your request:

Short Environmental Assessment Form

Instructions for Completing

Please refer to this link for step by step assistance: http://www.dec.ny.gov/permits/90156.html

Part 1- Project information. The applicant or project sponsor is reliable for the completion of part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attached additional pages as necessary to supplement any item.

Part 1- Project and Sponsor Information			
Name of Action or Project: CARELLI ABONE GROUND SWIMMING POOL			
Project Location (Describe, and attach a location map): 35 OBERLOOK AVE. WYNANTSKIN, NY	12198	3	
Brief Description of Proposed Action: NSTAU ABOUT GROUND SWIMMING POOL			
Name of Applicant or Sponsor: Anthony Carelli Address: Telephone: (518) 588-658 E-Mail: afcarelli@gmail.	4 com		
35 Oberlock Avenue City/PO: State: Zip Code: Wynantskill NY 1219	8		
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to part 2. If no, continue to question 2.	YES	NO V	
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? If yes, list agency(s) name and permit or approval:	YES	NO V	
3. a. Total acreage of the site of the proposed action? b. Total acreage to be physically disturbed? c. Total acreage (Project site and any contiguous properties) owned or controlled by the applicant or project sponsor? Acres O.16 Acres Acres			
4. Check all land uses that occur on, adjoining and near the proposed action.			
☐ Urban ☐ Rural ☐ Industrial ☐ Commercial ☑ Residential (suburban)			
Forest Agriculture Aquatic Other (Specify):			
Parkland			
5. Is the proposed action,	YES	NO	

 a. A permitted use under the Zoning regulations? b. Consistent with the adopted comprehensive plan? 		NO
or consistent was produced by the constant of	V	
6. Is the proposed action consistent with the predominant character of the existing built or	YES	NO
natural landscape?		
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If yes, identify:	YES	NO
	_	\ \ ,
8.	YES	NQ',
a. Will the proposed action result in a substantial increase in traffic above present levels?		\ \ \ .
b. Are public transportation service(s) available at or near the site of the proposed action?		\
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		\/
9. Does the proposed action meet or exceed the state energy code requirements?	YES	NO
If the proposed action will exceed requirements, describe design features and technologies:		
10. Will the proposed action connect to an existing public/private water supply?	YES	NO
	TDS	/
If no, describe method for providing wastewater treatment:	_	\checkmark
11. Will the proposed action connect to existing wastewater utilities?	YES	NO,
If no, describe method for providing wastewater treatment:	-	\checkmark
12.	YES	NO
a. Does the site contain a structure that is listed on either the State or National Register of Historic places?		$\sqrt{}$
b. Is the proposed action located in an archeological sensitive area?		$\sqrt{}$
13. a. does any portion of the site of the proposed action, or lands adjoining the proposed action, contain	YES	NO_
wetlands or other water bodies regulated by a federal, state or local agency?		· √
b. Would the proposed action physically alter, or encroach into, any existing wetland or water body? If yes, identify the wetland or water body and extent of altercations in square feet or acres:		
	-	V
14. Identify the typical habit types that occur on, or are likely to be found on the project site. Check all that apply:	YES	NO
15. Does the site of the proposed action contain any appaies of animal or associated habitate listed by	YES	NO ,
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	1123	
16. Is this project site located in the 100 year flood plan?	YES	NO/
	TITEC	<u>√</u>
17. Will the proposed action create storm weather discharge, either from point or non- point sources? If yes,	YES	NO
a. Will storm water discharge flow to adjacent properties?		\vee

b. Will storm water discharges be directed to establish conveyance systems (runoff and storm drains)? If yes, briefly describe	_	
	-	/
18. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)? If yes, explain purpose and size:	YES	NO V
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If yes, describe:	YES	NO
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If yes, describe:	YES	NO V
I AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE Applicant/ Sponsor name: Anthony Carelli Date: Signature: Gulli	-	
Part 2- Impact Assessment. The Leaf Agency is responsible for the completion of Part 2. Answer all of the follow	ving quest	tions in

Part 2- Impact Assessment. The Leaf Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the Proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing: a. public / private water supplies b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, water bodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding, or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

impacts. Part 3 should also explain how the lead agency determ impact should be assessed considering its setting, probability of Also consider the potential for short- term, long-term and cumu	f occurring, duration, irreversibility, geographic scope and magnitude.
the proposed action may result in one or more potentially large is required.	formation and analysis above, and any supporting documentation, that or significant adverse impacts and an environmental impact statement formation and analysis above, and any supporting documentation, that avironmental impacts.
Name of Lead Agency	Date
Print or Type Name of Responsible Officer in Lead Agency	Title of Responsible Officer
Signature of Responsible Officer in Lead Agency	Signature of Preparer (if different from Responsible Officer)

Part 3- Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significance adverse environmental impact, please complete part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential

PLOT PLAN

How far from property lines will your Swimming Pool be? Must be at least 20 feet from property lines – if not, you will need to request an area variance from the ZBA How many feet from back property line:			
Left Side: 5 feet from property line		Right Side: 37 feet from property line	
Please hand draw where your swimming pool will be in your yard		¬	
	HOUSE		
	Front of House Ober 100 K A	1-en U e	
 PLOT PLANS SHALL INCLUDE: Show bordering roads Show existing structures with setback Show proposed structures (pool and/o 	ks to property lines		

I understand that I must close out this permit and call for all inspections in order to receive the Certificate of Compliance before the pool is used:

❖ The property line at roads is not the edge of pavement (measure from center of road to ½ the distance
