## Exhibit 18

## Exempt Non-Stormwater Discharges

Rev 0: 2020 SWMP Rev Date: 12/28/20

Rev By: EPW

The Town of North Greenbush recognizes the potential for Non-Stormwater Discharges. The list below contains discharge sources which the Town currently considers to be exempt from Stormwater Management practices, provided they do not contain pollutants or other properties that would substantially impact drainage systems, wetlands, or water supplies.

- Any emergency activity that is immediately necessary for the protection of life, property or natural resources.
- Agricultural operations conducted as a permitted principal or accessory use, including the construction of structures where the land disturbance is less than one acre.
- Routine maintenance activities that disturb less than five acres and are performed to maintain the original lie and grade, hydraulic capacity, or original purpose of a stormwater management facility.
- Mining as defined by Town Code.
- The renovation or replacement of a septic system serving an existing dwelling or structure.
- Normal lawn and landscaping activities and maintenance in connection with an existing structure.
- Activities of an individual engaging in home gardening by growing flowers, vegetables and other plants primarily for use by that person and his or her family.
- Selective cutting of trees as defined by Town Code, except log haul roads and landing areas.
- Repairs or maintenance of any stormwater management practice or facility deemed necessary by the Stormwater Management Officer.
- Routine maintenance activities that disturb less than five acres and are performed to maintain the original lie and grade, hydraulic capacity, or original purpose of a facility.
- Cemetery Graves.
- Installation of a fence, sign, telephone and electric pole and other kinds of posts or poles.
- Springs, natural riparian habitat or wetland flows and other natural uncontaminated groundwater infiltration.
- Foundation or footing drains and basement sump pumps discharging unpolluted water.
